

Remarks

The present Amendment makes minor clarifying amendments to the claims of the present patent application. Claims 1-4, 7-10, 12-15, 18-21, 23, 25, 27, and 28 have been examined and allowed. By this Amendment, dependent Claims 8 and 19 have been amended. Dependent Claims 5, 6, 11, 16, 17, 22, 24, and 26 were previously cancelled without prejudice. It is respectfully submitted that no new matter has been added by the foregoing amendments. Additionally, it is respectfully requested that the present Amendment be entered prior to the issuance of the present application. If a decision is made not to enter the foregoing amendments in whole, Applicants respectfully request entry in part of those amendments for which the Examiner decides entry is proper per MPEP § 714.16(e).

Amendments to Dependent Claims 8 and 19

By this Amendment, dependent Claims 8 and 19 have been amended to correct minor typographical errors included in the claims. More specifically, the recitation in dependent Claim 8 of “determining that the first of the plurality of debit options has a higher associated priority that the second of the plurality of debit options” has been amended to recite “determining that the first of the plurality of debit options has a higher associated priority than the second of the plurality of debit options.” It is respectfully submitted that no new matter has been added by these amendments. Accordingly, it is respectfully requested that the amendments to dependent Claims 8 and 19 be entered prior to the allowance of the present application.
